

# Porcelain Pavers

## BEAUTY + IMPRESSIVE DURABILITY

Porcelain pavers are one of the most exciting developments in outdoor living. Porcelain pavers have the same benefits as regular porcelain - being frost-resistant, skid-resistant, durable and easy to clean - combined with incredibly high breakage loads (up to 2,000 lbs) creates the perfect solution for gardens, terraces and high traffic areas. Outdoor porcelain pavers can be dry laid onto grass, gravel, dirt and sand - or onto terraces and roofs using raised supports - without grout, adhesives or specialized workers, making installation incredibly easy.

### DIMENSIONS:

23.54" x 23.54" x 0.75"

### WEIGHT:

38 lbs

### QTY/PALLET:

60 units

### PALLET WEIGHT:

2,280 lbs

### COMPRESSIVE STRENGTH:

30,000 psi – ASTM C1161

### ABSORPTION:

0.05% – ASTM C373

### CHEMICAL RESISTANCE:

Not Affected – ASTM C650

### FREEZE / THAW RESISTANCE:

0.002% Mass Loss – ASTM C1026

### FLEXURAL STRENGTH:

6,200 psi – ASTM C1161

### SURFACE FRICTION:

>0.75 Dry & >0.42 Wet – ASTM E303
